Motion No. A 0014/14 - Concept to improve knowledge of foreign languages

Ladies and Gentlemen,

with pleasure we like to answer the above motion filed by the parliamentary party
"Die Linke / Tierschutzpartei" under the date Jan. 10th 2014.

We as Magdeburger Hafen GmbH - also in our capacity as provider of *international*
logistic services - are depending considerably from the ability to communicate with
our international customers / partners by using the english language.

As a consequence of that, we follow a training program where our respective
employees representing the company to wards international markets are using
training possibilities where ever possible and manageable.

As on example: two of our marketing and sales employees will go to London second
half this year and stay there for 4 - 6 weeks to brush up their language skills.

At present four marketing people of our staff are able to communicate in English - be
it in word or writing.

Hope the above satisfies the filed motion.

In case of interest we are happy to have a conversation about this subject in English
with Mr. Theile and Mr. Müller at our office.

Best regards

Magdeburger Hafen GmbH

Ehrhardt
